

GOLF SIMULATOR LEAGUES - MEN'S NIGHTS

How it works:

Our Monday, Wednesday and Thursday Men's nights offer a competitive experience where your foursome will compete in a best ball competition each week against other foursomes in the same day and time slot. Depending on which day and time slot your group decides to play in, will determine your competitors for the 10 weeks of play. Each day and time slot will be run as its own competition with Fed Ex Cup style points being awarded to each group depending on place.

The weekly best ball competitions will continue for 10 consecutive weeks. The group with the most accumulative Fed Ex Points from each day and time slot will then compete in the Playoff. Since there will be 6 winners in each division, there will be a wild card playoff system implemented. Meaning, the top 2 winners with the most points out of the 6 divisions will head straight into the finals. The following 4 teams will compete in the wild card to determine the last 2 teams that will enter the finals. The top 4 teams after the wild card championship will then compete in a final night to determine the Deer Creek Cup Sims Edition championship foursome.

Handicaps will be calculated by the Callaway scoring system. 3 blind holes will be determined each week to calculate the handicap. This is the easiest way to do it as we know everyone won't be able to attend every night, so substitute players can be used based on this system.

We will be using six-foot gimmies and NO mulligans.
